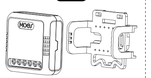
Instruction Manual
Smart Dimmer Module
Model:WM-105B-M

Wi-Fi

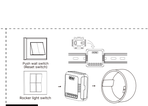


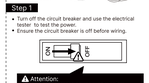
English

WM-105B-M-MS-DL29

Global international operation Wherever & Wherever You are, All-in-one Mobile App

Wihouse local operation





Step 1

- Turn off the circuit breaker and use the electrical tester to test the power.
- Ensure the circuit breaker is off before wiring.

Attention:
Please disconnect the power supply before installing or removing the device for avoiding irreversible damage on the device from the electric current or some unpredictable problems such as lamp flashing.

TECHNICAL SPECIFICATIONS

Model	WM-105B-M
Product type	Smart Dimmer Module
Voltage	90-250V AC
Max power	2×500W 110V / 2×1000W 220V
Wireless protocol	Wi-Fi 2.4GHz IEEE 802.11 b/g/n
Operation temp.	-0℃ ~ +40℃
Case temp.	Tc: +80℃ (Max.)
Dims (WxDxH)	40×40×18 mm
IP rating	IP20
Frequency band	2.412-2.4840Hz
Maximum radio transmit power	<+16dBm
RoHS Standard (RoHS)	2011/65/EU, (EU) 2015/863

Step 2
- Remove the old switch

Step 3
- Remove the switch and pull it away from the wall.
- Identify the Live/ Line and Neutral/The color of your wire may be different from color shown on the manual.)

Verify power is off
- We recommend you remove the faceplate from the old switch and use an electrical tester to test all wires connected to the switch to ensure there is no voltage in the circuit.
- *You may need to turn off more than one circuit breaker.

Product introduction
WiFi on-off is a kind of smart home device, by connecting to the WiFi network, it can realize functions such as remote control and timing switch, it is widely used in homes, offices, factories and other places, providing users with a more convenient and intelligent electricity experience.

INSTALLATION

Warnings:
1. Installation must be carried out by a qualified electrician in accordance with local regulations.
2. Keep the device out of the reach of children.
3. Keep the device away from water, damp or hot environment.
4. Install the device away from strong signal sources such as microwave oven that may cause signal disturbance which is abnormal operation of the device.
5. Obstruction by concrete wall or metallic materials may reduce the effective operation range of the device and should be avoided.
6. Do NOT attempt to disassemble, repair or modify the device.

2Gang Smart Dimmer Module

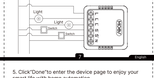
2. Without switch

3. With 3 Way switches

reset button

WIRING DIAGRAM

1. With two 1 Gang switch



Wiring Instructions and Diagrams

1. Turn off the power supply before carrying out any electrical installation work.
2. Connect wires according to the wiring diagram.
3. Insert the module into the junction box.
4. Connect the power supply and follow switch module configuration instructions.

Notes: Put your smartphone close to the switch module when you're configuring, and make sure you have min. 50% Wi-Fi signal.

FAQ

Q1: What should I do if I can't configure the switch module?
a. Please check whether device is powered on.
b. Make sure your mobile and switch module are under the same 2.4 GHz WiFi network.
c. Whether it's in good internet conditions.
d. Make sure the password entered in App is correct.
e. Make sure the wiring is correct.

Q2: What device can be connected to this WiFi switch module?

Most of your household electrical appliances can be, such as lamps, laundry machine, coffe maker, etc.

Q3: What happens if the WiFi goes off?

You can still control the device connected the switch module with your traditional switch and once WiFi is active again the device connected to module will connect automatically to your WiFi network.

Q4: What should I do if I change the WiFi network or change the password?

You have to re-connect our WiFi switch module to the new WiFi network according to the App User Manual.

Download the MOES APP

1 Download MOES App on App store or scan the QR code

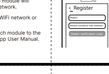
MOES App is upgraded as much more compatibility than Tuya SmartSmart Life App, functional well for scene controlled by widget and scene recommendations as the fully new customized interface.
(Note: Tuya Smart/Smart Life App still works, but MOES App is highly recommended)

2 Registration or Log in.

Download "MOES" Application.
2 Ore The Register/Log in interface, tap "Register" to create an account by entering your phone number to get verification code and "Set password".
Then click "Done" if you already have a MOES account.

3 Wi-Fi link method (two pairing methods)

Method One:
Touch the USB cable to configure the network guide.
1. Make sure your moes APP has successfully connected to Wi-Fi

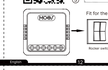


Method two:
Pair and clear up the WiFi code with Bluetooth and WiFi connected meantime.

1.Make sure your phone is connected to Wi-Fi and Bluetooth.

2.Open MOES/Tuya App and Click"+", then the prompt page will automatically show on the screen. Click "add".

3.Enter Wi-Fi Password and click "Next",waiting for completing the connection.



4.Select the device you want to add and click "+". Add the device successfully,you can edit the name of the device to enter the device page by click "Done"

5. Click"Done"to enter the device page to enjoy your smart life with home automation.

How to reset /pair Wi-Fi code

a. For switch module:
Press the reset button on the module for a long time until the beep sounds continuously and quickly for pairing and reset mode.

b. For rocker light switch:
press the switch button for10 times ON/OFF cycle for 10 times) until the beep sounds continuously and rapidly as On-Di-Di... for pairing and reset mode.

c. For reset switch:
press the switch button for 10 times until the beep sounds continuously and rapidly as Di-Di-Di... for pairing and reset mode.

How to add another third or more smart switches to control your light, just repeat the steps above. And you will see the result as below when you associate another new switch.

Main Switch
Associated 1
Associated 2

How to create multi-control association (only for N+L wire)

Note: Please confirm you have successfully finished the link method above before adding this switch to your MOES App before the association.

1. Add another smart switch to the same MOES App. (If there is a smart switch having been added before to the app, just go to next step.)

Note: If your switch requires a neutral wire, then there is no need to wire the new added switch to the light, only L and N are required for wiring. Then you can control 1 light with multiple switches in MOES App.

If your switch doesn't requires a neutral wire, you need to follow the wiring instructions to connect the L and light. At this point,you can control the lights simultaneously with multiple switches.

2. Then you will see two devices in the app and click the main switch(i.e.one gang switch as below) by entering into the next operation.

3. Click on the upper right corner and choose "Multi-Control Association, and then click "+" in the right corner.

4. Choose the switch that you want to associate to and then choose the switch button that you want to control the same light. Then back to the previous page,you will see two itemsin the page,one is your main switch, the other is the one you associated just now.

Note: Please confirm the associated switch is enabled.

5. Now you are able to control your light with two switches.
Do not associate another button in the same switch for multi-control.

Control your home with your voice

Devices are compatible with Amazon Alexa and Google Home supported functionalities.
Please see our step-by-stay guide on:
https://www.moeshch.com/blogs/news/smart-device-linked-voice-speaker

Declaration of conformity

Hereby,WENZHOU NOVA NEW ENERGY CO.,LTD declares that the radio equipment type WM-105B-M is in compliance with Directive 2014/53/EU,2014/35/ EU, 2014/30/EU, (EU) 2015/863.
The full text of the EU declaration of conformity is available at the following internet address: https://www.moestech.com/blogs/news/wm-105b-m

WARRANTY INSTRUCTIONS

Dear Sir or Madam, thank you for purchasing the produ ct.
We hope you'll enjoy using it.
The warranty for the products in the warranty card is h ereby granted as follows.
As a condition of using the warranty, you must comply with the following terms and procedures:
1. The warranty period is 24 months.
month warranty, effective from the date of purchase of the covered product by a retail customer.
2. In order to exercise warranty rights, the purchaser m ust present: a) Warranty card, b) Proof of purchase (A ll invoice, financial receipt or other document confirmi ng the actual date of purchase), unless the purchase d ate of the product comes from the warranty card.
3. If defects occur due to material and manufacturing d efects, the guarantee will expire in the following circumstances:
a) Removal the warranty seal from the product.
b) Remove the serial number from the product.
c) Take action to eliminate physical defects in the prod uct outside of authorized service.
d) Use non-original parts and consumables.
place an appropriate sticker on your packaging indicati ng the product is fragile, such as "Handle with care" or "Fragi ng Glass".
5. Reported defects covered by the warranty will be co nsidered immediately and no later than 14 days from th e date of delivery of the goods to the Guarantor.
6. After checking and determining the legality of the w arranty claim, the Guarantor's service will repair the pr oduct within a reasonable time, not exceeding 30 days from the delivery of the goods to the Guarantor.
However, if hard-to-
find spare parts are required, this deadline may extend the time it takes to deliver the goods from the manufactu rer's factory.
7. The warranty does not include the performance of m aintenance and similar operations specified in the user manual, which can be carried out by the user themselves.
8. If defects occur due to the use of wear and tear during use, the warranty does not cover it.
9. The warranty does not cover:
a) Mechanical damage caused by the user's fault and p roduct defects caused by such damage.
b) Damage caused by improper use of the product.
c) If the seal is damaged, the guarantee will expire in the foll owing circumstances:
a) Remove the warranty seal from the product.
b) Remove the serial number from the product.
c) Take action to eliminate physical defects in the prod uct outside of authorized service.
d) Use non-original parts and consumables.

RECYCLING INFORMATION

All products marked with the symbol for separate collection of waste electrical and electronic equipment (WEEE Directive 2012/19 / EU) must be disposed of separately from the normal household waste. To protect your health and the environment, this equipment must be disposed of at designated collection points for electrical and electronic equipment designated by the government or local authorities. Correct disposal and recycling will help prevent potential negative consequences for the environment and human health. To find out where these collection points are and how they work, contact the installer or your local authority.

Schritt 1

- Schalten Sie den Schutzschalter aus und verwenden Sie den Stromtester, um den Strom zu prüfen.
- Vergewissern Sie sich vor der Verkabelung, dass der Schutzschalter ausgeschaltet ist.

Achtung:
Bitte trennen Sie vor dem Installieren oder Entfernen des Geräts die Stromversorgung, um irreversible Schäden am Gerät durch den elektrischen Strom oder unvorhersehbare Probleme wie das Aufleuchten der Lampe zu vermeiden.

Schritt 2

- Entferne den alten Schalter

Schritt 3

- Entfernen Sie den Schalter und ziehen Sie ihn von der Wand weg. Identifizieren Sie die Leitungs-/ Belastungskabel (Hinweis: Die Farbe Ihres Kabels kann von der Farbe abweichen, die im Handbuch angegeben ist).

Überprüfen Sie, dass der Strom ausgeschaltet ist.
- Wir empfehlen Ihnen, die Bedienfläche vom alten Schalter zu entfernen und einen elektrischen Prüfstift für die Verbindung aller Drähte zu verwenden, um sicherzustellen, dass alle Stromkreisschalter in der Schaltung ausgeschaltet sind.
- Sie müssen möglicherweise mehr als einen Sicherungsautomaten ausschalten.

2Gang Smart Dimmer Modul

SCHALTPLAN

1. Mit zwei 1 Gang Schalter.

2. Ohne Schalter

3. Mit 3 Weg-Schalter

TECHNISCHE DATEN

Model	WM-105B-M
Produkttyp	Smart Dimmer Modul
Spannung	90-250V AC
Maximale Leistung	2×500W 110V / 2×1000W 220V
Drahtloses Protokoll	Wi-Fi 2.4GHz IEEE 802.11 b/g/n
Betriebstemperatur	-0℃ ~ +40℃
Fall temp.	Tc: +80℃ (Max.)
Abmessungen (BxTxH)	40×40×18 mm
IP Einstufung	IP20
Frequenzbereich	2.412-2.4840Hz
Maximale Funkübertragung	<+16dBm
RoHS-Norm (RoHS)	2011/65/EU, (EU) 2015/863

Laden Sie die MOES APP herunter.

1 Laden Sie die MOES App im App Store herunter oder scannen Sie den QR-Code:

MOES App ist mit mehr Kompatibilität als die Tuya SmartSmart Life App aktualisiert und funktioniert gut für Szenarien, die durch Sm gesteuert werden, einpfehl Widgets und Szenen als vollständige benutzerdefinierte Schnitt
(Hinweis: Tuya Smart/Smart Life App funktioniert immer noch, aber MOES App wird sehr empfohlen).

2 Wi-Fi-Verbindungsmethode:

Planen Sie den WLAN-Code mit Bluetooth und gleichzeitig verbundenem WLAN auf.

1.Stellen Sie sicher, dass Ihr Telefon mit WLAN und Bluetooth verbunden ist.
2. Öffnen Sie die MOES / Tuya-App und klicken Sie auf "+", dann wird die Statusmeldung automatisch auf dem Bildschirm angezeigt. Klicken Sie auf "Hinzufügen".
3.Geben Sie das WLAN-Passwort ein und klicken Sie auf „Weiter", warten Sie auf die Vollendung der Verbindung.

4. Wählen Sie das Gerät aus, das Sie hinzufügen möchten, und klicken Sie auf "+". Wenn Sie das Gerät erfolgreich hinzufügen, können Sie den Namen des Geräts bearbeiten, um auf die Geräteseite zu gelangen, indem Sie auf "Fertig" klicken.

5. Klicken Sie auf "Fertig", um auf die Gerätseite zu gelangen und Ihr intelligentes Leben mit Hausautomation zu genießen.

Garantieanweisungen

Sehr geehrte Damen und Herren, vielen Dank für den Kauf des Produkts. Wir hoffen, Sie werden viel Freude damit haben. Die Garantie für die Produkte in der Garantiekarte wird hiermit wie folgt gewährt. Als Bedingung für die Inanspruchnahme der Garantie müssen Sie die folgenden Bedingungen und Verfahren einhalten: 1. Die Produkte sind durch eine 24-monatige Garantie abgedeckt, die ab dem Datum des Kaufs des Produkts durch einen Einzelhandelskunden gilt. Die 24-Monats-Garantie gilt, wenn das Datum des Kaufs des Produkts nicht bereits in der Garantiekarte angegeben ist. 3. Wenn innerhalb von 24 Monaten ab Erhalt der Produkte

Qualitätsprobleme aufgrund von Material- und Herstellungsfehlern auftreten, wird der Garantieschein ungültig:
Unt oder zum Gerücht, wo Sie es geschafft haben, um eine Nachbearbeitung zu beantragen. Wenn das Produkt aufgrund persönlicher Gründe beschädigt ist, wird eine gewisse Reparaturgebühr berechnet. 4. Die Garantie deckt nicht ab: a) Mechanische Schäden, die aufgrund von Fehlern des Benutzers und Produktdefekten, die durch solche Schäden verursacht wurden, b) Schäden, die durch unsachgemäße Verwendung des Produkts verursacht wurden.

Konformitätserklärung

Hiermit erklärt die WENZHOU NOVA NEW ENERGY CO.,LTD, dass die Funkanlage Typ WM-105B-M mit den Richtlinien 2014/53/EU, 2014/35/EU, 2014/30/ EU, (EU) 2015/863 übereinstimmt.
Der vollständige Text der EU-Konformitätserklärung ist unter folgender Internetadresse abrufbar :
https://www.moestech.com/blogs/news/wm-105b-m

Manuel d'instructions (Français)

Étape 1

- Mettez le disjoncteur hors tension et utilisez le testeur électrique pour tester l'alimentation.
- Assurez-vous que le disjoncteur est éteint avant de procéder au câblage.

Attention :
Veuillez débrancher l'alimentation avant d'installer ou de retirer le dispositif pour éviter les dommages irréversibles sur le dispositif en résultant d'un courant électrique ou de quelques problèmes imprévisibles tels que le clignotement de lampe.

Étape 2

- Enlever l'ancien commutateur.

Étape 3

- Retirez l'interrupteur et tirez-le loin du mur. Identifiez le fil Line / Load
(Remarque: La couleur de votre fil peut être différente de celle indiquée dans le manuel.)

Vérifier que l'alimentation est hors tension.
- Nous vous recommandons de retirer la plaque frontale de l'ancien interrupteur et d'utiliser un testeur électrique pour tester tous les fils connectés à l'interrupteur afin de vous assurer qu'il n'y a pas de courant dans le circuit.
- Il se peut que vous deviez couper plusieurs disjoncteurs.

Module de gradation intelligent 2Gang

Bouton de réinitialisation

2. Sans commutateur

3. Avec 3 commutateurs à double sens

SPÉCIFICATIONS TECHNIQUES

Modèle	WM-105B-M
Type de produit	Module gradateur intelligent
Tension	90-250V AC
Puissance maximale	2×500W 110V / 2×1000W 220V
Protocole sans fil	Wi-Fi 2.4GHz IEEE 802.11 b/g/n
Temp. de fonctionnement	-0℃ ~ +40℃
Température de l'étui	Tc: +80℃ (Max.)
Dimensions (LxPxH)	40×40×18 mm
Indice de protection IP	IP20
Bande de fréquence	2.412-2.4840Hz
Puissance d'émission radio maximale	<+16dBm
Norme RoHS (RoHS)	2011/65/EU, (EU) 2015/863

Téléchargez l'application MOES

1 Téléchargez l'application MOES sur App Store ou scannez le code QR.

L'application MOES est mise à niveau avec une compatibilité bien plus importante que l'application Tuya SmartSmart Life, qui fonctionne bien pour les scènes contrôlées par Sm grâce aux recommandations de widgets et de scènes, comme le service entièrement personnalisé.
(Remarque : l'application Tuya Smart/Smart Life fonctionne toujours, mais l'application MOES est fortement recommandée.)

2 Méthode de liaison Wi-Fi :

Raccordez et nettoyez le code WiFi avec Bluetooth et WiFi connectés en même temps.

1. assurez-vous que votre téléphone est connecté au Wi-Fi et au Bluetooth.
2.Ouvrez l'application MOES/Tuya et cliquez sur "+", puis la page d'invite s'affichera automatiquement à l'écran. Cliquez sur "Ajouter".
3.Entrez le mot de passe Wi-Fi et cliquez sur "Suivant", en attendant la fin de la connexion.

4.Sélectionnez l'appareil que vous souhaitez ajouter et cliquez sur "+". L'ajout de l'appareil a réussi, vous pouvez modifier le nom de l'appareil pour accéder à la page de l'appareil en cliquant sur "Terminé".

5. Cliquez sur "Terminé" pour accéder à la page de l'appareil et profiter de votre vie intelligente grâce à la domotique.

Déclaration de conformité

Par la présente, WENZHOU NOVA NEW ENERGY CO. déclare que l'équipement radio de type WM-105B-M est conforme à la directive 2014/53/UE, 2014/35/UE, 2014/30/UE, 2011/65/UE.
Le texte intégral de la déclaration de conformité de l'UE est disponible à l'adresse Internet suivante :
https://www.moestech.com/blogs/news/wm-105b-m

Manuale di istruzioni (Italiano)

Passo 1

- Spegnere l'interruttore automatico e utilizzare il tester elettrico per verificare l'alimentazione.
- Assicurarsi che l'interruttore automatico sia spento prima di effettuare il cablaggio.

Verificare che l'alimentazione sia spenta.
- Si consiglia di rimuovere il frontalino del vecchio interruttore e di testare ogni filo collegato all'interruttore per verificare l'assenza di tensione nel circuito.
- Potrebbe essere necessario disattivare più di un interruttore.

Attenzione:
Si prega di scollegare l'alimentazione prima di installare o rimuovere il dispositivo per evitare danni irreversibili al dispositivo a causa della corrente elettrica o problemi imprevedibili come il lampeggiamento.

Passo 2

- Rimuovere l'interruttore vecchio.

Passo 3

- Rimuovere l'interruttore e staccarlo dal muro. Identifica il filo di Linea / Carico
(Nota il colore del tuo filo potrebbe essere diverso da quello mostrato nel manuale.)

Verificare che l'alimentazione sia spenta.
- Si consiglia di rimuovere il frontalino del vecchio interruttore e di testare ogni filo collegato all'interruttore per verificare l'assenza di tensione nel circuito.
- Potrebbe essere necessario disattivare più di un interruttore.

Modulo dimmer intelligente 2Gang

pulsante di reset

Passo 4

- Rimuovere il cavo.

2. Senza interruttore

Diagramma di cablaggio

3. Con interruttori a 3 vie

SPECIFICHE TECNICHE

Modello	WM-105B-M
Tipo di prodotto	Modulo dimmer intelligente
Tensione	90-250V AC
Potenza massima	2×500W 110V / 2×1000W 220V
Protocollo wireless	Wi-Fi 2.4GHz IEEE 802.11 b/g/n
Temperatura di esercizio	-0℃ ~ +40℃
Caso temporale	Tc: +80℃ (Max.)
Dimensioni (LxPxH)	40×40×18 mm
Grado di protezione IP	IP20
Banda di frequenza trasmissione wireless	2.412-2.4840Hz
Massima potenza di trasmissione radio	<+16dBm
Standard RoHS (RoHS)	2011/65/EU, (EU) 2015/863

Scarica l'APP MOES

1 Scarica l'app MOES sull'App Store o scansiona il codice QR.

L'app MOES è aggiornata con una compatibilità maggiore rispetto all'app Tuya SmartSmart Life, funzionante bene per le scene controllate da Sm, widget e raccomandazioni sono come come servizio totalmente nuovo personalizzato.
(Nota: l'app Tuya Smart / Smart Life funziona ancora, ma è altamente consigliata l'app MOES)

2 Metodo di collegamento Wi-Fi :

Associa e sincronizza il codice WiFi con Bluetooth e WiFi contemporaneamente connessi.

1. Assicurati che il tuo telefono sia collegato a Wi-Fi e Bluetooth.
2. Apri MOES / Tuya App e fai clic su "+", quindi la pagina di invito verrà visualizzata automaticamente sullo schermo. Fai clic su "Aggiungi".
3. Inserisci la password Wi-Fi e fai clic su "Avanti", in attesa di completare la connessione.

4. Selezionare il dispositivo che si desidera aggiungere e fare clic su "+". Aggiungi il dispositivo con successo, puoi modificare il nome del dispositivo per accedere alla pagina del dispositivo facendo clic su "Fatto".

5. Fare clic su 'Fatto' per accedere alla pagina del dispositivo per godere della tua vita intelligente con l'automazione domestica.

Dichiarazione di conformità

Con la presente, WENZHOU NOVA NEW ENERGY CO.,LTD dichiara che l'apparecchiatura radio di tipo WM-105B-M è conforme alla direttiva 2014/53/UE, 2014/35/UE, 2014/30/UE, 2011/65/UE.
Il testo completo della dichiarazione di conformità dell'UE è disponibile al seguente indirizzo Internet https://www.moestech.com/blogs/news/wm-105b-m

Istruzioni di garanzia

Gentile signore o signora, grazie per l'acquisto del prodotto. Speriamo che lo apprezzerete e utilizzerete. La garanzia per i prodotti nella scheda di garanzia è concessa come segue. Come condizione per l'utilizzo della garanzia, è necessario rispettare i seguenti termini e procedure: 1. I prodotti sono coperti da una garanzia di 24 mesi, a partire dalla data di acquisto del prodotto coperto da un cliente al dettaglio. 2. Per esercitare i diritti di garanzia, l'acquirente deve presentare: a) Certificato di garanzia, b) Prova di acquisto (fattura IVA, ricevuta finanziaria o altro documento che conferma la data effettiva di acquisto), a meno che la data di acquisto del prodotto non sia indicata sulla scheda di garanzia. 3. Se si verificano problemi di qualità dovuti a materiali e difetti di produzione, la garanzia scadrà in caso di:
a) Rimozione del sigillo di garanzia dal prodotto.
b) Rimuovere il numero di serie dal prodotto.
c) Adottare misure per eliminare difetti fisici al di fuori del servizio autorizzato.
d) Utilizzare parti e materiali di consumo non originali.
4. La garanzia non copre: a) danni meccanici causati per errori dell'utente e difetti del prodotto causati da tali danni. b) Danni causati da un uso improprio del prodotto.

Manual de instruções (Português)

Passo 1

- Desligue o disjuntor e utilize o aparelho de teste elétrico para testar a alimentação.
- Certifique-se de que o disjuntor está desligado antes de efectuar a ligação.

Atenção:
Por favor, desconecte a fonte de alimentação antes de instalar ou remover o dispositivo para evitar danos irreversíveis no dispositivo devido ao fluxo elétrico ou a algumas problemas imprevistos, como a pisca de luz.

Passo 2

- Remova o switch antigo.

Passo 3

- Remova o interruptor e puxe-o para longe da parede. Identifique o fio de Linha / Carga
(Observe que a cor do seu fio pode ser diferente da mostrada no manual.)

Verifique se a energia está desligada.
- Recomendamos que retire a placa frontal do interruptor antigo e utilize um aparelho de teste elétrico para testar todos os fios ligados ao interruptor para garantir que não há tensão no circuito.
- Poderá ser necessário desligar mais do que um disjuntor.

Módulo Dimmer Inteligente de 2 Ganguses

botão de reinicialização

Passo 4

- Remova o fio.

2. Sem interruptor

Diagrama de fiação

1. Com dois interruptores de 1 Gang

2. Sem interruptores

3. Com interruptores de 3 vias

ESPECIFICAÇÕES TÉCNICAS

Modelo	WM-105B-M
Tipo de produto	Módulo Dimmer Inteligente
Tensão	90-250V AC
Potência máxima	2×500W 110V / 2×1000W 220V
Protocolo sem fios	Wi-Fi 2.4GHz IEEE 802.11 b/g/n
Temp. de funcionamento	-0℃ ~ +40℃
Caso temporário	Tc: +80℃ (Max.)
Dimensões (LxPxA)	40×40×18 mm
Classificação IP	IP20
Banda de frequência	2.412-2.4840Hz
Potência máxima de transmissão de rádio	<+16dBm
Norma RoHS (RoHS)	2011/65/EU, (EU) 2015/863

Descarregar a aplicação MOES

1 Baixe o aplicativo MOES na App Store ou escaneie o código QR.

A Aplicação MOES é atualizada para ter muito mais compatibilidade do que a Aplicação Tuya Smart / Smart Life, funciona bem para cenas controladas por Sm, widgets e recomendações de cenas como um serviço totalmente novo e personalizado.
(Nota: Tuya Smart / Smart Life App ainda funciona bem, mas é altamente recomendado a Aplicação MOES)

2 Método de link Wi-Fi:

Associe e limpe o código Wi-Fi emquanto estiver conectado ao Bluetooth e Wi-Fi ao mesmo tempo.

1.Certifique-se de que o seu telefone está ligado à Wi-Fi e Bluetooth.
2. Abra o aplicativo MOES / Tuya e clique no botão "+", a página de solicitação será exibida automaticamente na tela. Clique em "Adicionar".
3. Introduza a Palavra-Passe Wi-Fi e clique no botão "Seguinte", aguarde a ligação ser concluída.

4. Selecione o dispositivo que deseja adicionar e clique em "+". Adicione o dispositivo com sucesso, você pode editar o nome do dispositivo para entrar na página do dispositivo clicando em "Concluído".

5. Clique em "Concluído" para entrar na página do dispositivo e desfrute de sua vida inteligente com automação residencial.

Declaração de conformidade

Pelo presente, a WENZHOU NOVA NEW ENERGY CO.,LTD declara que o tipo de equipamento de rádio WM-105B-M está em conformidade com a Diretiva 2014/53/UE, 2014/35/UE, 2014/30/UE, 2011/65/UE.
O texto completo da declaração de conformidade da UE está disponível no seguinte endereço da Internet :
https://www.moestech.com/blogs/news/wm-105b-m

Instrukcja obsługi (Polski)

Krok 1

- Wyłącz wyłącznik i użyj przyrządu testowego do testowania zasilania.
- Upewnij się, że wyłącznik jest wyłączony przed podłączeniem.

Uwaga:
Prosimy odłączyć zasilanie przed instalacją lub demontażem urządzenia, aby uniknąć nieodwracalnych uszkodzeń urządzenia spowodowanych prądem elektrycznym lub niespewidzianym problemem, takich jak migotanie żarówki.

Krok 2

- Usuń stary przełącznik.

Krok 3

- Usuń przełącznik i wyciągnij go z dala od ściany. Zidentyfikuj przewód linii/obciążenia
(Zwróć uw
